# OUR VALUES & ETHOS

## Honor

With pride in everything we do and the discipline to protect our clients' interest by committing ourselves to the task. Our duty is to provide a superior security service no matter the environment in which we operate.

## Communication

Top-down, bottom-up and lateral communication is essential in any successful organization. To Gravity Risk Consultants it is most important to acquire effectively flowing communication lines with clients and employees. This will ensure that our organization and all parties we associate with are at a harmonious balance.

## Quality

At Gravity we deliver 3- Dimensional Quality which always puts the client/customer at the centre of our organisation with a focus on the 4<sup>th</sup> Industrial Revolution as a driving force.

## Confidentiality

Strict confidence and adherence to the Protection of Personal Information Act. Gravity Risk Consultants treats all client and employee information as confidential and on a strictly need to know basis. Our databases are security encrypted and are housed "off-site". Only selected authorized personnel are given controlled access

## Fairness

Gravity Risk Consultants believes in equal opportunities. We take special care to know our employees so that we can better guide them in their careers, whether under Gravity Risk Consultants employ or beyond. Our goal is to harness the best out of every employees and establish trust in the work environment.

## Growth

Although trial does come with error, we are not afraid to journey the uncharted. Keeping good records and sharing lessons learned keeps us improving and adapting in an ever-changing world.
